

Homepage

A screenshot of the JobStreet homepage. The browser address bar shows "jobstreet.com.ph/?tracking-PAC-JobRecs-asia-6-logo". The page has a dark blue header with the JobStreet logo and navigation links: "Job search", "Profile", "Career advice", and "Company profiles". On the right of the header, it says "Clark" with a dropdown arrow and "Employer site". Below the header is a large dark blue search bar. It has two sections: "What" with a text input "Enter Keywords" and a dropdown "Any Classification"; and "Where" with a text input "Enter suburb, city, or region" and a pink "SEEK" button. Below the search bar is a "More options" link. The main content area is white and divided into three columns: "Recommended job" with a link to "Update your profile", "Saved job" with instructions on saving jobs, and "Saved search" with instructions on saving searches. Below these is a section "Find your next employer" with a description and a row of five company profile cards: Globe Telecom, Virginia Food, Inc., The Medical City, McDonald's, and Manulife. Each card has a logo and the company name. A right arrow button is at the end of the row.

Purpose

The purpose of JobStreet is to assist individuals in leading more enriching and efficient professional lives, while also aiding organizations in achieving success. SEEK's ambition is to support 500 million individuals in advancing their careers alongside 5 million companies in Asia.

Unique features

- **Tailored job recommendation** - JobStreet utilizes advanced algorithms to provide personalized job recommendations to users based on their skills, experience, and preferences.
- **Comprehensive company profiles** - JobStreet offers detailed company profiles that provide valuable insights into prospective employers.
- **Professional development resource** - JobStreet offers a range of professional development resources, including articles, webinars, and online courses, designed to help users enhance their skills, knowledge, and career prospects.

Modification:

We will change the Feedback and Evaluation because feedback from companies allows the user to provide more queries about the position that the user is applying this will improve the quality of the applicant and ensure that the applicants' experience will benefit the company.
